Re: Notice of File Closure for Small Mining Activities, Aqua Green #1 & #2, S/021/016, Iron County, Utah

Dear Ms. Coleman:

This letter is to notify you that file #S/021/016, for the Aqua Green #1 & #2 project, located in Section 34, T32S, R6W, Iron County, Utah, will be retired from our files. Your 1995 annual report indicated that you no longer held any mining claims and that the BLM had turned this project into a community pit.

In checking with the BLM, it was verified that this project was located on a community pit, and that you were issued a material sale agreement for the material you extracted from the pit. The BLM concurred with the fact that this file should be closed. Because this project is located on BLM managed lands, we will accept the BLM's recommendation and close our file accordingly.

If you wish to commence mining in another location, you will have to file a new notice with the responsible land management agency and also receive acceptance from this Division prior to any mining taking place. If you have any questions or concerns regarding this action, please notify us.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
